

CRAYLER CR 253-4W

PALFINGER CRAYLER

Four ways lead to success

Flexible and versatile, these are the key attributes of the new CRAYLER transportable forklift CR 253-4W. It is the specialist for handling long goods, which – thanks to its swivelling front wheels – it can move without difficulty in any direction even in the tightest space.

Manoeuvrability is the key

Technical data CRAYLER CR 253-4W

Load capacity	2500 kg / 600 mm LC
Engine	4-cyl. diesel engine, 47.8 kW (65 HP)
Dead weight	2570 kg (without forks)
Lift height	up to 3680 mm

Steering

- Best manoeuvrability through 180° steering angle = speedy, comfortable working even in the tightest space
- Simple construction = little wear, low maintenance costs

Protected cylinders

- The steering cylinder piston rods are only extended in 4-way operation. During transportation on the truck and in normal operation they are enclosed in the cylinder housing and therefore optimally protected against external influences.

Load shelf

- Optional wide load shelf facilitates the safe handling of long goods.

4-way mode

- Switching over to 4-way mode (moving sideways) takes place hydraulically by means of the control lever.

Transport on the truck

- Fits onto all standard forklift holders!

All wheel drive

- The locking differential makes for optimal travel on almost any terrain.
